## How did goPuff start?

Cofounders [Rafael Ilishayev](#) and [Yakir Gola](#) were sophomores at Drexel University in Philly when they decided that stocking their college townhouse with snacks and essentials was taking too much time & too many trips to the store on top of balancing school, work, friends & family. So they spent all night drafting mock-ups of the app on the back of their class notes. Three months later, they were delivering those same convenience items from the back of their Plymouth Voyager around campus. The service caught on, the name stuck & now 7 years, 200+ micro-fulfillment centers in 500+ cities and more than 3,000 employees later, our customers are ditching the store to get it goPuffed.

## What is goPuff's mission?

goPuff's mission is to make daily life effortless. goPuff provides the modern-day consumer's go-to solution for immediate everyday needs. We make delivering grocery, home, baby & pet essentials and OTC medications easy and affordable for everyone.
